

Rural areas

The following table represents rural areas that are all outside of the areas classed as metropolitan by the Code of Conduct for the Supply of Electricity to Small Use Customers 2018.

For these rural areas the standard connection service definition is:

- 63 amps single-phase (240 volts); or
- 32 amps per phase, three-phase (415 volts); and
- 32 amps per phase, split-phase, (480 volts) (note: subject to service availability).
